

# Discovery Report Appendix K

## Discovery Meeting Agenda

### Lake Erie – Headwaters to the Cattaraugus Watershed

**HUC 04120102**

Allegany, Cattaraugus, Erie and Wyoming Counties, New York

*July 2016*

**FEMA**

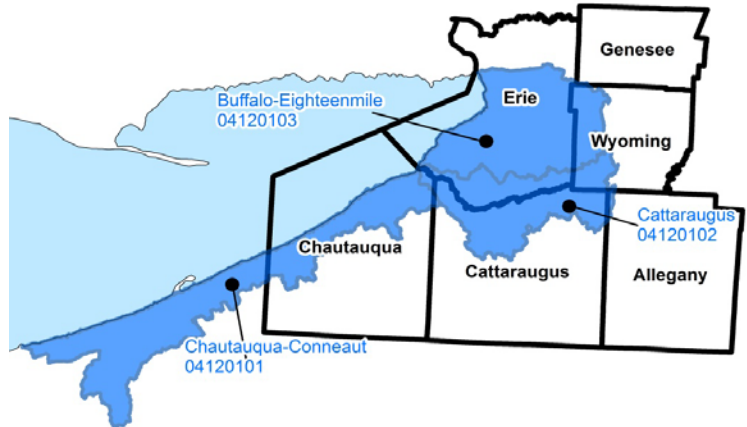

**Federal Emergency Management Agency**  
**Department of Homeland Security**  
26 Federal Plaza  
New York, NY

## Lake Erie Watershed Discovery WebEx

Sessions for the week of May 19, 2014

### Background

FEMA is focused on updating the floodplain maps for coastal regions throughout the United States, and this includes all five of the Great Lakes. The Lake Erie Watershed Discovery project is the beginning of an interactive process that results in a watershed-wide assessment of existing flood hazard mapping needs, existing information useful in updating the Flood Insurance Rate Maps (FIRMs) and ultimate recommendations for the development of updated Risk Mapping, Assessment and Planning (Risk MAP) and Flood Insurance Rate Map products.

This interactive WebEx will introduce the RAMPP planning team, provide a background to the Discovery process, and begin to document flood mapping needs for participating communities. Using an online survey (<https://www.surveymonkey.com/s/LakeErieDiscovery>), the planning team will capture additional local floodplain and hazard risk data needs and request feedback from the municipalities, Counties, and regional groups within the project area.

The purpose of the Discovery meeting(s) is to review any information previously provided by communities, state and regional agencies, and local stakeholders, discuss your community's floodplains and floodplain management activities, mitigation plans and projects and flood risk concerns, and to provide additional feedback for FEMA to consider when developing Risk MAP products for your community, including the potential development of new Flood Insurance Rate Maps (FIRMs) where needed.

### Agenda

|  |                                    |
|--|------------------------------------|
| Welcome & Introduction to Discovery Process      | Robyn Boyd / Andrew Martin (RAMPP) |
| Coastal Data and Collection Progress             | Jeff Gangai / Emily Dhingra RAMPP) |
| Data Collection Survey                           | Rachael Herman (RAMPP)             |
| Identification of Flood Risk Concerns via ArcMap |                                    |

### Community Survey

Prior to the webinar, please click on the following link to complete the Data Discovery survey for your community:

<https://www.surveymonkey.com/s/LakeErieDiscovery>

*Note: If you are unable to complete the survey in one sitting, complete as much as you can and exit the survey. When you are able to finish, use the same computer to pick up where you left off. SurveyMonkey will remember your computer.*

## WebEx Login Information, Schedule & Participating Communities

To join the webinar, click on the WebEx URL to join the meeting.

Once you have joined the online meeting, you will be given several options for audio: meeting can call you, use computer to call in to meeting, or dial into meeting with audio connection.

Meeting Password: LakeErie

## Discovery Meeting Agenda

### Introductions

#### Why are we here?

- Great Lakes Coastal Flood Study Overview and Schedule
- Discovery Process and Outcomes

#### Risk MAP Overview

- Discovery Overview
- Discovery Products

#### Coastal Study Overview

- Study Area
- Analysis

#### Mitigation Planning & Risk Communication

- Data Collection and Collaboration
- How does this apply to my community?
- Hazard mitigation opportunities and grant funding

#### Interactive Session

- We want to hear from you
- View and Discuss Local Areas of Concern Using the Discovery Map and Community Risk MAP Questionnaire

### Wrap Up
