

Discovery Report Appendix H

Pre-Discovery Mailing List and Invitation Letter

Lake Erie – Headwaters to the

Cattaraugus Watershed

HUC 04120102

Allegany, Cattaraugus, Erie and Wyoming Counties, New York

July 2016

FEMA

Federal Emergency Management Agency
Department of Homeland Security
26 Federal Plaza
New York, NY

Dear Community Leader:

FEMA Risk Assessment, Mapping, and Planning Partners (RAMPP) has identified you as a community stakeholder for the Lake Erie Watershed. This is the beginning of an interactive planning process that should result in new watershed-wide Risk Mapping, Assessment and Planning (RISK MAP) and Flood Insurance Rate Map products for the Great Lakes. FEMA's Risk MAP program is designed to deliver quality data that increases awareness of flood risks and leads to mitigation activities which reduce the potential loss of life and property. To achieve this goal, RAMPP is working with communities within the Lake Erie watershed to determine if additional local floodplain and flood hazard risk data are available to provide for the most accurate identification of flood hazard risk and flood mapping. To learn more about FEMA's Risk MAP program, please visit <http://www.fema.gov/rm-main>.

During the **week of May 19, 2014**, FEMA and RAMPP will hold a series of virtual Discovery Meetings for Lake Erie Watershed stakeholders. These meetings will introduce the Discovery project concepts, discuss the project timeline and will begin to document flood needs within your community (via interactive mapping). This is a one hour interactive meeting where we will review the data collection survey (<https://www.surveymonkey.com/s/LakeErieDiscovery>) and collect community specific information which will be used to determine floodplain mapping needs or existing data that should be used to update the existing floodplain maps. The information collected during the FEMA Discovery project ultimately will result in the identification of data and mapping needs that will be used in the development of new watershed-wide Risk Mapping, Assessment and Planning (RISK MAP) and Flood Insurance Rate Map products. Attached is the agenda for this meeting.

WebEx_LakeErie_A
genda_May2014....

Kindly confirm your community's attendance by accepting or declining this invite by **COB Thursday May 15, 2014** by accepting this meeting invite and/or emailing Rachael Herman (rrherman@dewberry.com). ***Please extend this invitation as well as the online survey (<https://www.surveymonkey.com/s/LakeErieDiscovery>) to community leaders, emergency managers, GIS specialists, and local planners that have a knowledge of flood concerns and mapping needs in your community.***

It is extremely important that representatives from your community attend the WebEx, since this will be the community's opportunity to provide local input to the Lake Erie Discovery Project and identify mapping needs within your community.

WEBEX INFORMATION (AT END OF INVITE)

To join the webinar, click on the WebEx URL at the bottom of this email.

Once you have joined the online meeting, you will be given several options for audio: have the meeting call you, use computer to call in to meeting, or dial into meeting with phone using audio connection.

We look forward to your participation,

Robyn Boyd, CFM

FEMA

May 29, 2014

Dear Lake Erie Watershed Stakeholder:

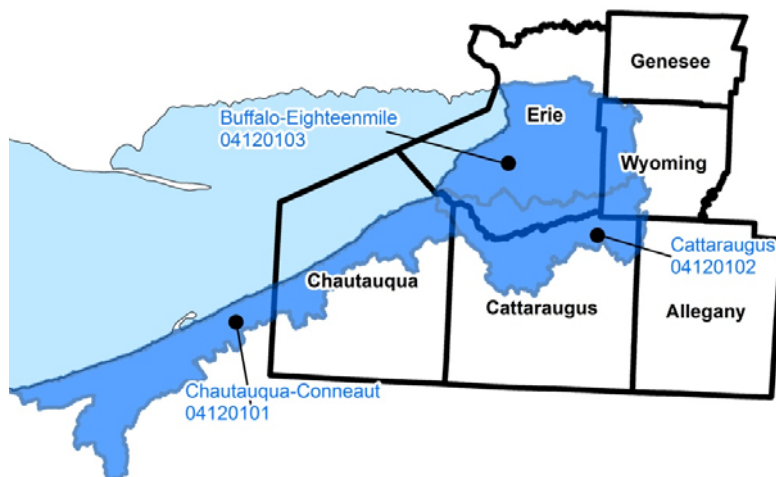

The Department of Homeland Security's Federal Emergency Management Agency (FEMA) is focused on updating the floodplain maps for coastal regions throughout the United States, and this includes all five of the Great Lakes. The Lake Erie Watershed Discovery project is the beginning of an interactive process that results in a watershed-wide assessment of existing flood hazard mapping needs, existing information useful in updating the Flood Insurance Rate Maps (FIRMs) and ultimate recommendations for the development of updated Risk Mapping, Assessment and Planning (Risk MAP) and Flood Insurance Rate Map products.

The Risk Mapping, Assessment, and Planning (Risk MAP) program is designed to deliver quality data that increases awareness of flood risks and leads to mitigation activities which reduce the potential loss of life and property. To achieve this goal FEMA and RAMPP are continuing to work with communities within the Lake Erie Watershed to determine if additional floodplain and flood risk mapping products are needed. To learn more about FEMA's Risk MAP program, visit <http://www.fema.gov/rm-main>.

In May 2014 FEMA and RAMPP held several webinars to kick off the Lake Erie Watershed Discovery. During these meetings, an overview of FEMA's Risk MAP Discovery process was provided as well as an interactive portions to being the discussion of each community's flood mapping needs, development pressures, and to request any data

each community or county may have that would be useful in the flood mapping process. Meeting minutes and the presentations from these WebEx meetings can be found at <https://www.rampp-team.com/ny.htm>.

As a follow up to the webinars, FEMA and RAMPP will be holding a Discovery Stakeholder Meeting in three locations for communities, agencies, interested organizations and watershed groups within the Buffalo-Eighteenmile Creek Watershed, Chautauqua-Conneaut Watershed, and the Cattaraugus Creek Watershed.

The meeting location is as follows:

Date and Time	Counties	Meeting Location
<i>Tuesday, June 10, 2014 9:30 AM to 12 PM</i>	<i>Erie and Genesee</i>	<i>Woodlawn Beach State Park S-3580 Lakeshore Rd Blasdell, NY 14219</i>
<i>Tuesday, June 10, 2014 2:30PM to 5PM</i>	<i>Chautauqua</i>	<i>JCC North County Training Facility 10785 Bennett Road Dunkirk, NY 14048</i>
<i>Wednesday, June 11, 2014 9:30 AM to 12 PM</i>	<i>Allegany, Cattaraugus, Wyoming</i>	<i>Town of Concord Court 86 Franklin Street Springville, NY 14141</i>

The purpose of the Discovery Meeting is to review the information stakeholders provided during the virtual meetings and collected from the submitted online Community Survey (<https://www.surveymonkey.com/s/LakeErieDiscovery>). The meeting will provide an opportunity to discuss the floodplains and floodplain management activities throughout the watershed, discuss your community's mitigation plan, mitigation projects as well as any flood risks or concerns. The information provided will be used by FEMA when developing the Risk MAP project scope, including development of new Digital Flood Insurance Rate Maps (DFIRMs). In addition to updated DFIRMs, flood risk mapping projects may include the development of easy-to-use risk assessment tools and data where appropriate. Other Risk MAP projects may range from activities involving mitigation projects or planning, communication and outreach support, or other related efforts that reinforce a community's flood resiliency.

Kindly confirm your organization's attendance via email to lakeeriediscovery@rampp-team.com or by phone 716-949-6327 by Thursday June 5, 2014. Please extend this invitation to other interested individuals in your organization.

We would welcome attendance and feedback from your organization since this will be the primary opportunity for stakeholders to learn about the Risk MAP program and provide local input to proposed watershed projects. If you have any questions, please contact either Rachael Herman Rachael Herman at rherman@dewberry.com or 716-949-6327 or Robyn Boyd at rboyd@dewberry.com or 703-849-0644.

We look forward to your participation.

Sincerely,

Paul Weberg, P.E.
Senior Engineer
Risk Analysis Branch
FEMA Region II
