#### [E-mail subject line]: Invitation to October 19th Mid-Hudson Watershed Discovery Meeting

Dear Stakeholder,

The Federal Emergency Management Agency (FEMA) in partnership with the New York State Department of Environmental Conservation (NYSDEC) has started a new Risk Mapping, Assessment, and Planning (Risk MAP) "Discovery" project for the Mid-Hudson Watershed which includes all or a portion of your community. FEMA's Risk MAP program is designed to provide quality flood maps, other tools including data, and support to assist communities in taking action to reduce flood risk.

The Discovery process of FEMA's Risk MAP program is about the "discovery" of flood hazards and flood risk in a particular watershed. As part of the Mid-Hudson Watershed Discovery project, FEMA and NYSDEC will work closely with local communities and organizations to collect information about flood mapping needs, including flooding issues and flood mitigation activities; recent development; and other issues related to flood risk.

Your involvement in this project is very important because the information collected will be used to develop recommendations for a future Risk MAP project that may be initiated if funding is available. Such a follow up project could include the creation of digital flood maps, risk assessment or mitigation planning assistance.

In May, NYSDEC and FEMA conducted Pre-Discovery webinars to present an overview of the project. The next step will be in-person Discovery Meetings for communities, agencies, interested organizations and watershed groups. During the meetings, we will review flood risk data collected, discuss your community's floodplains, mitigation plans, and flood risk concerns, and the vision of the watershed's future. Attendees will be able to meet one-on-one with project team members to discuss local flooding issues, provide feedback on their community's existing floodplain maps, and learn more about programs and activities that may help reduce flood risk.

The Discovery Meeting for stakeholders in your area is scheduled for **Wednesday**, **October 19**<sup>th</sup>, **2016 from 1:30 PM – 4:00 PM** and will be held at the following location:

Albany County Cooperative Extension Meeting Room 24 Martin Road Voorheesville, NY 12186

Kindly confirm your organization's attendance to Grace Vinson by e-mail at gracevinson@clarkgroupllc.com or by phone at (802) 917-0582 by October 14, 2016.

We encourage you to read and distribute the enclosed project flyer and to extend this Discovery Meeting invitation to other interested individuals in your organization (e.g. code enforcement officer, engineer, planning board, public works department, highway department, etc.) and other local or regional groups such as watershed associations, chambers of commerce, and realtor, lender, and farmer organizations.

If you have not already done so, please complete the Discovery Stakeholder Survey online at <a href="https://www.surveymonkey.com/r/Mid-Hud">https://www.surveymonkey.com/r/Mid-Hud</a>, or request a PDF or paper copy of the survey by contacting Grace Vinson using the contact information above. The survey includes questions about current and historical flooding problems, accuracy of flood maps, and other important information that the project team is requesting from communities and organizations such as yours. Completing the survey **before** the Discovery Meeting will allow us to use the time during the meeting most efficiently.

We strongly encourage you to participate in the Discovery Meeting. <u>This is your opportunity to ensure that FEMA and NYSDEC are aware of local flooding issues and flood mapping needs.</u> If you have any questions, please contact NYSDEC at 518-402-8185.

We look forward to your participation,

Kelli Higgins-Roche
Environmental Engineer

#### [E-mail subject line]: Invitation to Upcoming Mid-Hudson Watershed Discovery Meetings

Dear Stakeholder.

The Federal Emergency Management Agency (FEMA) in partnership with the New York State Department of Environmental Conservation (NYSDEC) has started a new Risk Mapping, Assessment, and Planning (Risk MAP) "Discovery" project for the Mid-Hudson Watershed. FEMA's Risk MAP program is designed to provide quality flood maps, other tools including data, and support to assist communities in taking action to reduce flood risk.

The Discovery process of FEMA's Risk MAP program is about the "discovery" of flood hazards and flood risk in a particular watershed. As part of the Mid-Hudson Watershed Discovery project, FEMA and NYSDEC will work closely with local communities and organizations to collect information about flood mapping needs, including flooding issues and flood mitigation activities; recent development; and other issues related to flood risk.

Your involvement in this project is very important because the information collected will be used to develop recommendations for a future Risk MAP project that may be initiated if funding is available. Such a follow up project could include the creation of digital flood maps, risk assessment or mitigation planning assistance.

In May, NYSDEC and FEMA conducted Pre-Discovery webinars to present an overview of the project. The next step will be in-person Discovery Meetings for communities, agencies, interested organizations and watershed groups. During the meetings, we will review flood risk data collected, discuss local floodplains, mitigation plans, and flood risk concerns, and the vision of the watershed's future. Attendees will be able to meet one-on-one with project team members to discuss local flooding issues, provide feedback on existing community floodplain maps, and learn more about programs and activities that may help reduce flood risk.

The schedule of Discovery Meetings for the Mid-Hudson Watershed is listed below. Kindly confirm your organization's attendance for your desired meeting date and location to Grace Vinson by e-mail at <a href="mailto:gracevinson@clarkgroupllc.com">gracevinson@clarkgroupllc.com</a> or by phone at (802) 917-0582 by **October 14**, **2016**.

### Tuesday, October 18th, 2016 from 9:00 AM - 11:30 AM

Greene County Emergency Training Facility 25 Volunteer Drive Cairo, NY 12413

### Tuesday, October 18th, 2016 from 1:30 PM to 4:00 PM

Kingston Library Meeting Room 55 Franklin Street Kingston, NY 12401

## Wednesday, October 19th, 2016 from 1:30 PM to 4:00 PM

Albany County Cooperative Extension Meeting Room 24 Martin Road Voorheesville, NY 12186

#### Thursday, October 20th, 2016 from 9:00 AM to 11:30 AM

Schodack Town Hall 265 Schuurman Road Castleton, NY 12033

### Thursday, October 20th, 2016 from 1:30 PM to 4:00 PM

Columbia County Soil & Water Conservation District Office

Conference Room 1024 State Route 66 Ghent, NY 12075

We encourage you to read and distribute the enclosed project flyer and to extend this Discovery Meeting invitation to other interested individuals in your organization and other local or regional groups such as watershed associations, chambers of commerce, and realtor, lender, and farmer organizations.

If you have not already done so, please complete the Discovery Stakeholder Survey online at <a href="https://www.surveymonkey.com/r/Mid-Hud">https://www.surveymonkey.com/r/Mid-Hud</a>, or request a PDF or paper copy of the survey by contacting Grace Vinson using the contact information above. The survey includes questions about current and historical flooding problems, accuracy of flood maps, and other important information that the project team is requesting from communities and organizations such as yours. Completing the survey **before** the Discovery Meeting will allow us to use the time during the meeting most efficiently.

We strongly encourage you to participate in the Discovery Meeting. <u>This is your opportunity to ensure that FEMA and NYSDEC are aware of local flooding issues and flood mapping needs.</u> If you have any questions, please contact NYSDEC at 518-402-8185.

We look forward to your participation,

Kelli Higgins-Roche Environmental Engineer NYSDEC Bureau of Flood Protection & Dam Safety 625 Broadway, 4th Floor Albany, NY 12233-3504 (518) 402-8185 (phone) Floodplain@dec.ny.gov

## Mid-Hudson Watershed Risk MAP Discovery Project

Join us in capturing a more complete picture of flood risk in your community and watershed.

## The FEMA Risk MAP Program

Risk Mapping, Assessment, and Planning (Risk MAP) is the Federal Emergency Management Agency (FEMA) program that provides communities with quality flood maps and other tools they can use to enhance their mitigation plans and take action to reduce flood risk. As part of the Risk MAP program, FEMA, in partnership with the New York State Department of Environmental Conservation (NYSDEC), has started a Risk MAP Discovery project for the Mid-Hudson Watershed.

## Mid-Hudson Watershed Discovery Project

The Discovery process of FEMA's Risk MAP program is about the "discovery" of flood hazards and flood risk in a particular watershed. As part of the Mid-Hudson Watershed Discovery project (map on next page), FEMA and NYSDEC will work closely with local communities and organizations to collect information about flooding issues and flood mitigation activities; flood mapping needs; recent development; and other issues related to flood risk. The Discovery process helps communities identify areas at risk for flooding and solutions for reducing that risk.

The project team is currently collecting watershed-wide data and will coordinate with local stakeholders to obtain additional data about flood risk. The information collected during this Discovery process will be used to develop recommendations for a future Risk MAP project that may be initiated if funding is available. Such a follow up project could include the creation of digital flood maps, risk assessment or mitigation planning assistance. The Discovery process does not necessarily mean that a new Risk MAP project will take place – instead, it is the process through which FEMA and NYSDEC learn about local flooding issues and prioritize the need for new studies.

## **Upcoming Discovery Meetings!**

FEMA and NYSDEC are hosting five Discovery Meetings in your watershed soon. During the meetings, we will review the flood risk data collected, discuss your community's floodplains, mitigation plans, flood risk concerns, and the vision of the watershed's future. Attendees will be able to meet one-on-one with project team members to discuss local flooding issues, provide feedback on their community's existing floodplain maps and learn more about programs and activities that may help reduce flood risk.

## <u> Attend an Upcoming Discovery Meeting - </u>

This is your opportunity to ensure that FEMA and NYSDEC are aware of local flooding issues and flood mapping needs. Make sure your community's voice is heard!

RSVP for any of the Mid-Hudson Watershed Discovery Meetings below by contacting Grace Vinson of the project team by email at gracevinson@clarkgroupllc.com or call (802) 917-0582.

## <u>Tuesday, October 18, 2016</u> <u>9:00 AM - 11:30 AM</u>

Greene County Emergency Training Facility 25 Volunteer Drive, Cairo, NY 12413

## Tuesday, October 18, 2016 1:30 PM - 4:00 PM

Kingston Library, Training Room 55 Franklin Street, Kingston, NY 12401

### Wednesday, October 19, 2016 1:30 PM - 4:00 PM

Albany County Cooperative Extension, Meeting Room 24 Martin Road, Voorheesville, NY 12186

### Thursday, October 20, 2016 9:00 AM - 11:30 AM

Schodack Town Hall 265 Schuurman Road, Castleton, NY 12033

### Thursday, October 20, 2016 1:30 PM - 4:00 PM

Columbia County Soil & Water Conservation District, Conference Room 1024 NY Route 66, Ghent, NY 12075

## How can this project help your community and your watershed?

Input from local communities and organizations is very important because it will ensure that FEMA and NYSDEC are aware of flooding problems, flood mapping needs, and other related issues that communities in the watershed are facing. Your input will be used to prioritize needs for a future Risk MAP project (e.g., to develop revised flood analysis, mapping, or other tools) that may be initiated if funding permits.

Because flood hazards change over time, this project provides an opportunity for community officials and other stakeholders to take a comprehensive look at the activities and factors that contribute to your community's and your watershed's flood risk. In addition to providing another perspective, participating in this process will increase your understanding of your flood risk and help you identify proactive steps you can take to protect your community from losses to life and property that often accompany flooding.

### **About NYSDEC**

NYSDEC partners with FEMA as a Cooperating Technical Partner (CTP), to maintain the state's flood maps and assist in the development of related flood risk information. The CTP program creates partnerships between FEMA, communities, and regional and state agencies to become more active participants in FEMA's Risk MAP program. For questions about this project or the state's Floodplain Management program, contact the NYSDEC team at (518) 402-8185 or Floodplain@dec.ny.gov.

## Discovery Data Collection: You Can Help!

FEMA and NYSDEC are currently gathering information from local communities and organizations in the watershed such as yours as part of the Discovery data collection process. Some of the types of information that you can help with are listed in the box below. We would appreciate your participation in the data collection process by completing the Discovery Stakeholder Survey online at <a href="https://www.surveymonkey.com/r/Mid-Hud">https://www.surveymonkey.com/r/Mid-Hud</a> before the Discovery Meetings if possible.

If you'd prefer to complete and send in the survey by standard mail or email, contact Grace Vinson of the project team by email at gracevinson@clarkgroupllc. com or call (802) 917-0582 to request a PDF copy of the survey.

## Examples of Information You Can Help With

- Current / Historical flooding problems
- Flood map inaccuracies / Other mapping needs
- *High water marks*
- Recent flood mitigation activities
- Planning / Development activities
- Infrastructure information, especially for new bridges, culverts, and dams
- Availability of GIS data
- Training needs
- Other people / organizations to involve
