

Inspection of Federal Local Flood Protection Project at: Bolivar, NY

Field Signature Page

I certify that an inspection of this community's flood protection project was performed on this date and that a copy of the inspection checklist was given to the community.

Richard Oleniacz
(INSPECTOR)

Richard Oleniacz

U.S. Army Corps of Eng.
Pittsburgh District
(AGENCY)

4/12/11
(DATE)

I acknowledge receiving a copy of the inspection checklist documenting an inspection of our flood protection project.

X Theodore C. Myers
(SPONSOR REPRESENTATIVE)

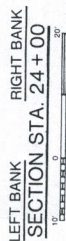

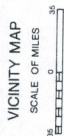

Environmental Engineer 2
(TITLE)

4/12/2011
(DATE)

The final project rating and report of the inspection of this flood protection project will be forthcoming after a review by the US Army Corps of Engineers.

Priority Maintenance Items:

1. Continue cleaning out the sedimentation basin.
Remove the sediment bars in the channel.
2. Prepare an Emergency Action Plan for the project.
3. Remove all remaining small trees & bushes within the channel.
4. Pursue Allegany County participation in project maintenance either as a local sponsor or provide assistance (sediment removal).
